## **Terms and Conditions - New Construction Incentive**

Program Offer: The Program covers products purchased and/or services rendered on or after January 1, 2024.

## **Program Requirements:**

- 1. Must install an electric heating AND central cooling system (designed for 100% of the building) which must include one of the following:
  - Cold Climate Air Source Heat Pump (see systems at https:// ashp.neep.org/, hybrid permitted)
  - Geothermal system (Hybrid permitted)
  - ENERGY STAR® qualified air source heat pump (Hybrid permitted) Standard air source heat pump (for Premier Electric home only,
  - hybrid permitted)
- 2. For the All Star Home Bonus, domestic hot water must be provided by an electric storage water heater supplemented by a geothermal system, or heat pump water heater. The Premier Electric Home Bonus can be applied if a stand-alone electric storage water heater is installed.
- 3. For the All Star Home Bonus, electric appliances (clothes washer, clothes dryer, dishwasher and refrigerator) must be installed and ENERGY STAR
- 4. Efficient Construction must be verified by one of the following methods:
  - A. Proof that the home is built according to the ENERGY STAR Home program. Requires a signed ENERGY STAR Home certificate.
  - Proof that the home has received a HERS (Home Energy Rating Service) rating of 55 or less. Requires a signed HERS report.
  - Provide a copy of All Star Home Checklist with signature from the homebuilder.

Note: Method A or B above requires an approved ENERGY STAR or HERS rater. All methods require a signature on this form from the builder/

5. Equipment affiliated with other incentive programs in conjunction with the New Electric Home Bonus Incentive must meet all requirements of the applicable incentive programs.

## **General Terms and Conditions**

Rebates shall be pro-rated based on the percent of power supplied by the utility if the customer has distributed generation.

**Application Information:** Missing or incorrect information on the application may delay processing and delivery of the rebate. An invoice is required and should include specific product information, including the brand, model, serial number and date of purchase of the energy efficient measures. Other information including manufacturer's equipment performance sheets may be required upon request.

The Utility reserves the right to verify sales transactions and to have reasonable access to the Customer's facility to inspect pre-existing equipment (if applicable) and energy efficient measures installed under this program.

Warranty Information: The Utility makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacturing. The Utility does not guarantee that a certain level of energy or cost savings will result from the use of products covered by this program.

**Limitation of Liability:** The Utility's liability in connection with this program is limited to paying the rebate specified when all terms and conditions have been satisfied. Under no circumstances shall the Utility be liable for any consequential or incidental damages or tax liability resulting from participation in this program.

**Participant Certification:** Participating Customer certifies that he/she purchased and installed the equipment listed on their application at the defined location served by the Utility. The Customer agrees that all information provided is true and that he/she has conformed to all program requirements. If the equipment and application does not comply with the Utility's rules and qualifications, the rebate amount may be denied or adjusted.

Program Changes/Termination: The Utility reserves the right to extend, modify (including incentive levels) or terminate this Program at any time without prior or further notice. The Customer is responsible for checking with the Utility to determine whether the program has been changed or is still in effect.

Customers must apply for rebates within six (6) months of the purchase date (as shown on the Customer's invoice) and are subject to the current year program offer if received after January 31st. Past eligibility, however, does not guarantee that equipment will meet criteria for current programs in
